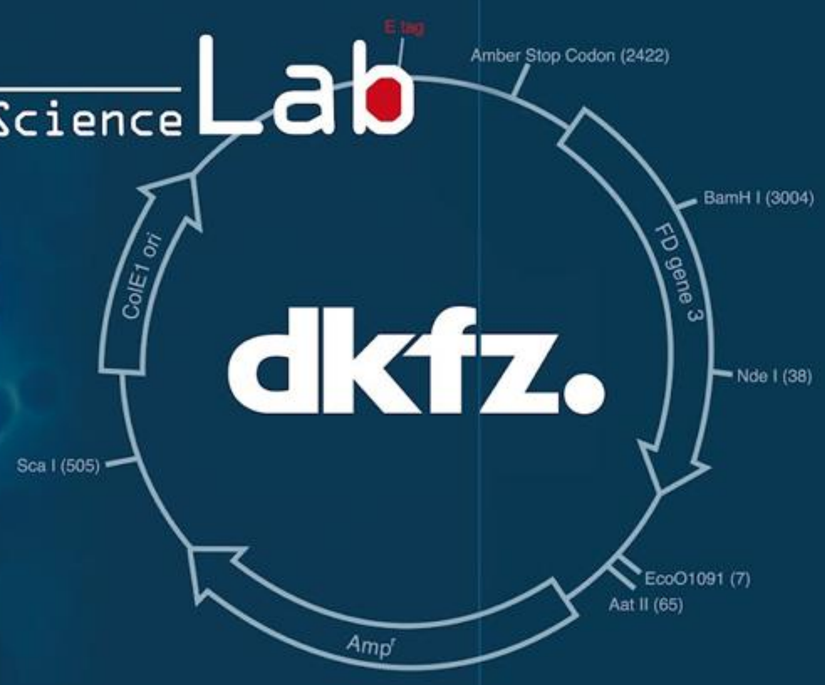
Heidelberger Life-Science Lab



English AGüP

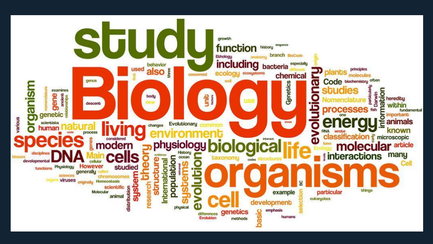
What we will do this year?

Reading academic journals

Interview with a scientist

Presentations

Pitch competition



Scientific terminology and quiz

Frankenstein: Literature that still matters

Step into the Shadows …

Join the English Group as we dive into the thrilling world of Gothic Fiction! Together, we'll explore how far scientific progress should go, who the *real* monster is and in what way gender and power play a role within the timeless tale of *Frankenstein*.

Along the way, we'll read spooky short stories and even head out to see a Gothic play come to life (just like the monster).

And YOUR ideas and wishes!

Mentors:

Avantika Ghosh, Dr. (she/her)
Rebecca Uzzi, M.Sc. (she/her)
Laura Amato, B.A. (she/her)
Valentin Rischke, stud. (he/him)

alternating sessions between Scientific and Literature English

Why join the English Group?

- **Master Communication**: Enhance your ability to understand and communicate complex scientific ideas clearly and effectively.

- **Essential for Research**: English is the global language of science – it's a must-have skill for publishing papers, collaborating with international researchers, and attending conferences.

- **Study and Work Abroad**: English proficiency opens doors to study programs and internships at top universities and companies around the world.

- **Boost Your Career**: Many international companies and organizations require strong English skills, giving you a competitive edge in the global job market.

- **Interactive Learning**: Develop your English through discussions, presentations, and real-life scientific contexts in a fun, supportive environment.

- **Network**: Connect with like-minded students, and expand your contact network early on.

- **Literary Competence**: Exploring literature develops empathy, creativity and skills to think critically about the world.
